Catalogue Working Categories Definitions

These definitions are a guide only and buyers must use their own judgment when purchasing a dog at auction.

Starting

A pup or young dog who displays natural interest in stock. May approach them in a variety of ways depending on natural working style.

Started

A pup or young dog who has been given basic commands and some training on a lead, such as “Come”, “Sit”, “Stay”. Usually will have been taken in a vehicle or on a bike.

Will be interested in stock and going around them in an enclosed area, working according to natural ability.

Well Started

Young dog will have some confidence on a small mob, but will not handle a big mob single handed and generally will make a few mistakes. Reasonably obedient depending on level of desire. Can be asked to bring small mobs in easy situations. May be learning to drive. May be able to be worked from a bike, horse or on foot.

Trained and Experienced

To be eligible for this section the dog must be trained and have at least 12 months experience working on mobs. This dog still may make mistakes, particularly in a new work situation with a new handler.

A minimum of six weeks bonding period is essential after purchasing a pup or dog in any category. A started, well started or trained and experienced dog should not be expected to perform properly for a new handler in under six weeks.
