

MANAGING DIRECTOR

OUTSTANDING INDUSTRY LEADERSHIP ROLE

Meat & Livestock Australia is a public company limited by guarantee, comprising over 50,000 levy paying members across Australia, from the cattle, sheep and goat meat industries. It services the red meat industry through innovative research, development and adoption programs and effective domestic and international marketing and market development programs.

MLA's purpose is to deliver world leading outcomes that fuel global competitiveness, sustainability and producer profitability.

The Managing Director will be a proven senior executive who will be accountable to a skills based Board. The successful candidate will:

- Develop, refine and implement the company's strategic plan, identifying key priorities in alignment with Red Meat 2030
- Build strong, effective relationships with levy payers, government and industry groups
- Engage stakeholders at all levels and provide thought leadership
- Continue the development of an innovative culture at MLA, and across the supply chain
- Have strong business and financial management skills
- Have excellent supply chain knowledge

To effect the above, you will require:

- Strong interpersonal skills
- Substantial leadership, management and professional expertise
- Network and relationship capability across agribusiness and government
- A commitment to the core cultural and organisational values of MLA and its members

This outstanding role is **based in North Sydney** with a domestic and global remit.

To express your interest, email your application and CV, quoting MLA in the subject box, to consultant@pacificsearch.com.au and/or call (03) 9631 1500 for a confidential discussion.

Closing date: Friday 2nd February 2024
